## **Saturday Training**

### **Newsletter - Oct 2009**

Despite the problems with venues we've had a successful start to the season with lots of good weather. Long may it continue.....but I doubt it. I haven't had a lot of feedback regarding the Saturday Training section of the Banchory Boys Club website, but what I have received has been positive. For those who are unaware we now place the latest newsletters and any latest news in this section. We will also use it to notify of training cancellations due to bad weather so it would be useful for you to keep the web address handy as we are coming into winter. The web address is [www.banchoryboysclub.co.uk](http://www.banchoryboysclub.co.uk) and follow the Saturday Training link. The website will be updated either on a Friday evening (if it is fairly evident that training will need to be cancelled) or after 9am on Saturday morning (if a pitch inspection is required).

**SESSION 2: 31st October until 12<sup>th</sup> December.**

**SESSION 3: 9<sup>th</sup> January until 20<sup>th</sup> March.**

**SESSION 4: 17th April until 19th June.**

The times for the sessions for the **Primary 2 to Primary 7** age groups will continue to be from **10.00am until 11.30am**, with the sessions for the **Primary 1** children starting at **10.30am** and finishing at the same time.

Could I please ask all those that haven't completed the membership forms to return them to me as soon as possible.

A few key points for parents: Ensure children use shin pads and football boots; Warm tracksuits, hats and gloves in winter; Still drink for break time (take away litter). Please also remember that it is the parents responsibility for collecting children and waiting to see if training is cancelled due to bad weather or unplayable pitch.

As we always mention the success of Saturday football relies on volunteers and parental support. Therefore we are really pleased to welcome Graeme, Craig, Cameron and Sandy who are assisting with the P1's and P2's. If you think you can help with setting up, clearing up, training or just some administration then please approach any of the trainers or contact Chris Dickinson on Banchory 823041.
